| | | | | | |
| | | | | | |
| | | | | | |
| | | | | | |

**Total hours:** _____ Signature / approval: _____

Enter actual start/end times and unpaid breaks. Hours are decimal hours, not hours:minutes.
Overnight: record the date the shift starts. Each row must be shorter than 24 hours. Split longer work into rows.
PDF and Word are manual records. Excel calculates elapsed hours, not wages, overtime entitlement or deductions.
A half-month is not always fifteen days.
